

Security Reporter 3.5.10 Release Notes

June 2018

Trustwave is pleased to announce the release of Security Reporter version 3.5.10. This software release requires a Trustwave Security Reporter appliance running software version 3.5.0, and will upgrade the Trustwave Security Reporter software version to 3.5.10.

Updated Features

Operating System upgrade

SR now runs under the TrustOS operating system (version 2.5.9).

- This release of TrustOS mitigates the Meltdown Vulnerability (CVE-2017-5754).

Software Updates and Changes

- MySQL has been updated to mitigate security concerns.

Resolved Issues

- For a list of Resolved Known Issues, browse to <http://www.trustwave.com/software/8e6/ts/sr-rki.html>. Click the SR 3.5.10 accordion section (and earlier version sections if upgrading from earlier versions) to view the resolved known issues for this software release.

System Requirements

This software release is available for the following hardware platforms:

Models 300, 500, 505, 700, 705, 730, 735

Browser requirements

The following minimum browser versions are tested and fully supported for access to the SR web interfaces:

- Internet Explorer 11
- Edge (*Note: Certificate management for Edge is performed in Internet Explorer.*)
- Firefox (current versions)
- Chrome (current versions)
- Safari (current versions)

Earlier browser versions can generally be used to access the Report Manager. The System Configuration interface requires a HTML5 compliant browser.

Note: The latest versions of Safari (10 and above) and Chrome (55 and above) require user permission to run Flash for each site. For more information about how this change affects SR, see Trustwave Knowledgebase article [Q20733](#).

Update Instructions

To update your supported Security Reporter appliance, see the Software Update section of the *Administrator Guide* or Software Update screen in the Console.

The update cannot be uninstalled.

Documentation

To download the full set of documentation that applies to this release, see <https://www.trustwave.com/support/SR/>
